In-House Wire Dyeing and Striping

At Four Star Wire and Cable, we offer a unique service where we can customize the color and stripe pattern of your wire to make installation easier for you.

Make the right connections with wire striping. It's a practical and cost-effective solution to easily identify wires and cables in various applications.

Choose from custom color combinations or pre-stripped wires to ensure easy recognition, saving you time and money. Whether you're a seasoned pro or just starting out, wire striping is worth considering when working with similar wires.

Our experts will work with you to ensure that the process is tailored to your specific needs and preferences. This convenient service is carried out in our Sterling Heights facility, so you can be assured of the quality and timely completion of your order.
